Williams, 2b.  
Jordan, 1b.  
McFarland, lf.  
Beville, c.  
Chesbro, p.  
Empire-Hassett.

BOSTON. Sept. 14.—As the Invasers didn't put up the game expected of them, it hurt the attendance this afternoon. Another drawback was the overpowering heat which has not been so great on the field this season. The sky fairly belched forth hot waves.

Jordan, late of the Nashua, New England League, was out in practice as he made his appearance today for New York at first.

Griffith had three twirlers out warming up.

First Inning.  
Conroy flied to Doughty. Fultz cut the air and Keeler died. Ferris to Lachance. No runs.

Second Inning.  
Eberfeld laced one inside the left foul line to the fence for two sacks. Stahl made a running catch of Williams's long hit. Jordan got a great handle on facin' Dineen, but he did the same as he did to the man ahead of him, and McFarland put one in the sky for Lachance. No runs.

Freeman's bouncer was railroaded by Eberfeld to Jordan. Parent sent a daisy cutter to Keeler, who ran in and tumbled over it. Conroy's fly fell into Lachance's mitt. No runs.

Freeman's bouncer was railroaded by Eberfeld to Jordan. Parent sent a daisy cutter to Keeler, who ran in and tumbled over it. Conroy's fly fell into Lachance's mitt. No runs.

Doyle, 1b.  
Dahlen, ss.  
Gessler, rf.  
Jordan, 2b.  
Jacklitch, c.  
Jones, p.  
Empire—Mr. Emslie.

Just before practice time Bud Bill Dahlen received a telegram from President Pullman notifying him that he had been suspended for three days for his dispute with Umpire Moran last Saturday. Joe Tinker, of the Cubs, was notified at the same time that his suspension would be lifted to-morrow.

Flood took Dublin's place at short for Brooklyn, Jack Taylor, whose wife died last week, joined the Cubs to-day. He reported in good shape and Seale sent him in to pitch.

First Inning.  
Strang popped to Chance. Sheppard dropped a safe hit in right. Dobbs sent a liner to McCarthy. Sheppard was thrown out stealing second. No runs.

Stahl's well was too hot for Oscar Singler to right. Seale's single. McCarthy was caught asleep off first by a slow grounder along the first-base line. Dahlen took Dublin's place at short for Brooklyn, Jack Taylor, whose wife died last week, joined the Cubs to-day. He reported in good shape and Seale sent him in to pitch.

## AQUEDUCT BOARD BEGINS HEARING

Holds an Investigation Into Charges of Merchants' Association of Improper Construction of Reservoir.

The Aqueduct Commission began an investigation to-day into the charges of the merchants' Association that the construction of the Jerome Park retaining wall was not done according to contract.

Commissioner Curtis presided. Commissioners Ten Eyck, Ryan and Win-

chester were in attendance. All the persons mentioned in the letter of complaint of the Merchants' Association have been notified to appear and testify.

Those summoned for today are Charles Babcock, Gerald McMurray, Alfred Craven and Robert J. Gudlin, all former employees of the Commission or of the contractor, John B. McDonald.

All of them have told their stories to the District Attorney, H. D. Dumont, represented the Merchants' Association.

John B. McDonald was invited to a seat near the witness chair, but he said he did not think it worth while to bring counsel, and Commissioner Curtis told him he might cross-examine the witnesses if he cared to do so.

None of the four witnesses summed answered when his name was called. B. J. Gudlin arose from Croton Landing that he had not authorized the use of his name, and that he had never given any information to the Merchants' Association regarding the Jerome Park reservoir construction.

Then Herbert C. Allen, an assistant engineer employed by the Aqueduct Commission, took the chair as the first witness. Since 1898 he had been in charge of the Western half of the reservoir. Common report, he said, drew his attention to the faulty construction of the retaining wall, and he reported what he found to his chief, the division engineer. He could not remember when he made the report.

Mr. Allen said the faults in construction were made while he was in charge of the work, but he did not notice them until some one spoke to him about them. The inspector who inspected the work during its progress made no report to him of any neglect of the specifications.

"Where are the faults?" "If I can't know why that is so, but I know it is. My formal reports cover the point."

"Does the reservoir leak?" "The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

"The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

### RING BATTLES TO-NIGHT.

Abe Attel, of San Francisco, will box Kid Herman, of Chicago, twenty rounds in St. Louis.  
Crockett Boyle and Billy Maharg, ten rounds at Reading, Pa.  
"Philadelphia Tommy" Ryan and Martin Duhy, ten rounds in Kansas City.  
George Munroe and Young Mack, ten rounds, Chester, Pa.  
Hughie McGovern and Kid Beebe, six rounds before National A. C., of Philadelphia.

#### COMING BATTLES.

Willie Fitzgerald vs. Mike Ward, Port Huron, Mich., Sept. 17.  
Jack ("Twin") Sullivan vs. Charley McKeever, Boston, Sept. 22.  
Robert Fitzsimmons vs. Con Coughlan, Philadelphia, Sept. 25.  
Charley Neary vs. Young Mowatt, Milwaukee, Sept. 25.  
Epa Rubin vs. Kid Carter, Philadelphia, Sept. 28.  
Eddie Hanlon vs. Benny Yanger, San Francisco, Sept. 29.  
Jack Johnson vs. Hank Griffin, San Francisco, Sept. 29.

## HARVARD ELEVEN TO START WORK

(Special to The Evening World.)  
CAMBRIDGE, Mass., Sept. 14.—Thursday the work of getting the Harvard football team into shape will be started here in earnest. Carl Marshall, the captain of this year's Varsity eleven, is already here and he is making active preparations for the reception of the team. Probably the thing that is bothering the coaches most is the formation of a fast back field. Under the new rules quickness, speed and ability to dodge will count. Of the quarter which represented Harvard behind the line last year Marshall is the only man who will be in college this season. Graydon, Putnam and Kernan are all lost to the team with the serious problem of constructing out of raw material a back field which can play a new and double style of game.

If quickness and speed and sand will count behind the line this fall, then little Hurley, who played substitute right half back last year, will have a good chance to make the team. Hurley easily was a star last year. All he needed was weight. Weight now has become in a measure a secondary thing—at least during the first part of the season.

The inspection of the twenty-five-year lines and Hurley, with his remarkable agility, should shine brightly in the new game of football which Harvard will play.

"If I can't know why that is so, but I know it is. My formal reports cover the point."

"Does the reservoir leak?" "The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

"The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

"The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

## GRIDIRON WORK FOR YALE TEAM

(Special to The Evening World.)  
NEW HAVEN, Sept. 14.—The football season at Yale will commence today, when the Blue warriors will have their first practice on the gridiron. There is plenty of material on hand, and the squads will get right down to hard work. The Hutchinson dormitory, which is set apart for the candidates, has been put in readiness for them. This year an innovation will be made in the training table, which will be at the college commons instead of some private boarding-house. The table will be started today.

Ralph J. Bloomer, who has been kept out of the game for three years because of scholarship technicalities, expects to be able to play this fall, but an examination in his studies still dangles over him, and unless he passes he will be ruled off again. Reports are current that Rockwell, the quarter-back, would go into business at his home in Portland, Ore., but they have not been confirmed. A rumor prevails here that Met-calf, half-back, injured his knee playing baseball and will be in poor condition this fall.

The coaches say the great problem that faces them will be the developing of a new centre trio to replace the giants Goss, Glass and Holt. Bloomer will be tried at guard if he is allowed to play. Smith and Cartwright, the freshman guards of last year, will be tried at centre and guard on the Varsity this fall. Indications are that the centre places will be played pretty this year.

"If I can't know why that is so, but I know it is. My formal reports cover the point."

"Does the reservoir leak?" "The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

"The wall leaks from the exterior to the interior face of the wall. There has never been any water in the reservoir and I do not know if the wall leaks from the interior."

## MRS. FRANK FOSTER HAS GREAT RECORD

Mrs. Frank Foster, the three-year-old Ben Strome filly, holds the honor of having won the greatest number of races this year.

With her victory last Wednesday at Buffalo she has passed the wire first nineteen times since Jan. 3, when she won her first race this year. All her races were at six furlongs and her special forte was the mud.

Last Tuesday she was asked to go a mile and a sixteenth, and few expected her to go more than six or seven furlongs. The track was just to her liking that day and she galloped over the entire distance, beating a very good field. She also holds the record for the year of having carried the lightest weight of the year on her back. This occurred on July 31 at Fort Erie. A little fellow named Callahan, an apprentice, had the mount and he weighed in at 64 pounds. The race was at a mile that day, and she finished second, beating winning nineteen races she has been second thirteen times and third ten times.

Mrs. Frank Foster opened her campaign at New Orleans last winter and was shipped to Benning at the opening of that track. After the Morris Park meeting her owner took her to the Canadian tracks, where she has been campaigning ever since.

The Hutchinson dormitory, which is set apart for the candidates, has been put in readiness for them. This year an innovation will be made in the training table, which will be at the college commons instead of some private boarding-house. The table will be started today.

Ralph J. Bloomer, who has been kept out of the game for three years because of scholarship technicalities, expects to be able to play this fall, but an examination in his studies still dangles over him, and unless he passes he will be ruled off again.
